

Fire Alarm Service Technician - Cincinnati

This position requires the ability to understand and develop technical solutions to complex field problems pertaining to fire and security systems. The technician will be responsible for the installation, operation, and troubleshooting of fire alarm and security systems. Additionally, this position requires the ability to properly communicate issues and/or solutions to the customer. The right individual for this role will be a motivated and energetic individual who takes initiative, enjoys finding solutions to challenges, is detail-oriented, and takes extreme pride in their work. The hours for this position are typically 8 AM – 5 PM Monday through Friday.
